The only real affordable housing measure

Measure U1 raises \$3.5 million a year from big landlords to pay for affordable housing.

It generates \$3.5 million for affordable housing, paid for by big landlords and not renters. That's why Measure U1 was unanimously placed on the ballot by the City Council and is supported by:

Vote NO on DD, the Big Landlord Deception

Don't be fooled. Measure DD is a big landlord-bankrolled measure that lets them off the hook, raising just one third of the money for affordable housing as Measure U1.
